August Meteor Shower

The Perseids are one of the brighter meteor showers of the year. They occur every year between July 17 and August 24 and tend to peak around August 9-13.

Annual meteor showers tend to take place over several days—some even over weeks or months—and it is possible to view several meteors on any day the shower is active. Astronomers and veteran stargazers, however, suggest trying your luck during the nights of peak activity, when the meteor shower is expected to have the highest number of shooting stars.

THURSDAY NIGHT PAINT CLASS

We will be painting this Sun & Moon painting. Come rest your mind for a couple of hours and enjoy painting with old friends and new friends. Class starts at 6:00pm in the Fellowship Hall. Just let me know you are coming by calling the church office. Cost is $15.00 and that covers all your supplies. 7/21/22

When you create a piece of art, you may experience a hint of what God likely felt, and in doing so, you also may be able to understand God's love even more.

HUEYTOWN FIRST DISCERNMENT PROCESS

Here is the web page that was mentioned this past Sunday for those interested in reading more concerning the separation process taking place within the UMC. I hope this helps.

NewMethodistmovement.org

We will be providing more information as we move forward with this process.

BARONS BASEBALL

We are scheduling **August 7th as Barons Day**. We need to commit now for a great group so we can get a sky box. Let's go have some fun, cheer on the Barons, have a hot dog or burger, AND enjoy the air conditioning doing so. Call the church and say, "Put me down for the Barons Game Day."
